

Symbiosis in Context - Connecting Insights across Systems and Scales

Wednesday, 9 October 2024

Spatial context (15:00 - 17:00)

time	[id] title	presenter
15:00	[27] Symbiosis-on-a-chip: microfluidic technology for probing species interactions	COHEN, Louis
15:30	[28] One nice image does not count! Temporal and spatial dynamics of symbiont lineages in a grain pest beetle	CHANG, Dongik
15:45	[29] Zooming in on the dynamics of leaf-associated bacterial communities	SCHLECHTER JAHN, Rudolf
16:00	[30] From the bottom of the sea to the depths of the stomach glands: Imaging microbial metabolites during epithelial colonization and persistence	GEIER, Benedikt
16:30	[71] Meet the speakers
