

Symbiosis in Context - Connecting Insights across Systems and Scales

Wednesday, 9 October 2024

Young talent session (09:00 - 11:00)

time	[id] title	presenter
09:00	[43] Structural and molecular foundation of the symbioses between aquatic Midichloriaceae and eukaryotic hosts	BERNDT, Henry
09:15	[44] Location matters for strain variability in ecto- and endosymbionts of deep-sea mussels	CIFUENTES-ANTICEVIC, Jerónimo
09:30	[45] Environment-Dependent Symbiont Dynamics Shape Developmental Niche in Fruit Flies	EVLANOVA, Anna
09:45	[48] Metabolic exchange in Host-Symbiont Interactions	FIORI PEREIRA, Camila
10:00	[46] Antifungal defense in a culturable, vertically transmitted insect endosymbiont	MAEDA, Gerald
10:15	[47] Tracking down three microbes in <i>Ascophyllum nodosum</i> holobiont	ROUSSEAU, Coralie
10:30	[70] Meet the speakers
