

# Symbiosis in Context - Connecting Insights across Systems and Scales

## Thursday, 10 October 2024

### Methodological context (09:00 - 10:45)

time	[id] title	presenter
09:00	[34] Deciphering the genetic basis of mutualistic interactions through integrative phylogenomics	KELLER, Jean
09:30	[36] FISH and Ips: imaging the gut symbionts of bark beetles	BAÑOS-QUINTANA, Ana Patricia
09:45	[37] Identification of culturable fungi and bacteria in mosquito saliva and their impact on arbovirus infection in vitro	TRAPPENIERS, Katrien
10:00	[35] Inducing Novel Endosymbioses by Bacteria Implantation in Fungi	GIGER, Gabriel
